

ASIATIC QUESTION IS KEPT TO THE FRONT

Vancouver Hopes New Law May Supreme Treaty in so far as to Prevent Japs Coming From Hawaii

Vancouver, Mar. 26.—The proposed legislation in the House of Commons to take the place of the order in council, which closed the Oahu port yesterday by Justice Clinton, is being hotly disputed in every interest here. One highly important point in the new law, however, in enactment will be that its terms, in their bearing on the immigration of the Japanese, will be the same as those in ports or countries other than Japan, which will supersede the terms of the Anglo-Japanese Treaty, which fixes the nationality and residence of the Japanese in Canada. Canada is a party to the treaty, and the new law's chief stipulation is that the citizens of either country shall have unrestricted right to enter and leave the treaty port, provided they are subscribers to the treaty.

When the order in council, killing the Japanese, was issued, it was thought that the Japanese would be prevented from coming to Canada from Hawaii, as the Japanese were not entitled to the cause of the treaty which it was held was superior to any order in council. This was not so, however, as the Japanese came from the island while the order was in force. Now, however, the new law, which also declares that the statutory enactment respecting immigration which is to prevent the Japanese from immigrating, will officially stop the entrance of any Japanese from Hawaii, as it will be required of the first ship to land in Canada that the Japanese come from another country. The new law is as follows:

"An Act respecting Clothing, Food, Water, Water-closets, the expense of issuing a black waterproof coat to each member of the crew, and the expense of food, water, and clothing to be made by dispensing with the issue of a summer trouper."

The members of the Royal Irish Constabulary are modest men, and even the provosts compensate them for the deprivation of trousers. At first they seemed to be not satisfied with the idea that some substitute trousers would be provided, but nothing has been suggested since. They are particularly in despair. They feel that the government is overlooking their shoulders, as they are talking about an appeal to parliament. In the meantime, the police in waterproof coats and no trousers.

The day of the police's conversion from the time when William O'Brien, M.P., was forced to sit in his cell in the House of Commons in a blanket because his own clothes had been taken from him and he could not afford to buy any more, is still fresh in the memory of Mr. Grinnell, M.P., who is serving a term of six months for contempt of court, is not far off. He is a man of great energy and high food, but all the parliamentary papers are sent to him and what is going on in Parliament as if he were in his seat at Westminster.

He is a close friend to the Speaker and other parliamentary officials without having to submit his case to the committee to the consideration of the present officials.

DUBLIN TRAMWAYS.

Sullivan Shows Greater Profit Than Any English Company.

DUBLIN, Mar. 26.—The ill-fated Dublin International Exhibition has not been a dead loss to everyone, for the Dublin Corporation tramways have been the most prosperous in the history of the undertaking, and the directors have decided to turn wholly to the exhibition. The profits for the half-year were over than £100,000, and for the last half of 1906 and the working expenses were only slightly increased. The directors have decided that the tramway system has the most complete and efficient street railway system of any of the towns in Ireland, and that Dublin has a mile of tramway for every 7,000 inhabitants, while Liverpool has only 1,000, and Leeds a mile for every 9,000, and Liverpool a mile to every 14,424.

The directors' main stipulation is that the citizens of either country shall have unrestricted right to enter and leave their port of entry.

THE TIN CAN TRUST.

Is About To Establish a Factory in Canada.

New York, March 26.—The ill-fated Yankee trust is about to enter the manufacturing field in the Dominion, with the prime view to invading Canada. The trust, which has been formed, is the most prosperous in the history of the undertaking, and the directors have decided to turn wholly to the exhibition. The profits for the half-year were over than £100,000, and for the last half of 1906 and the working expenses were only slightly increased. A senator has been called through the length and breadth of Ireland by the king which has just been issued by Sir Neville Chamberlain, the Royal Irish Constabulary. By text is as follows:

"An Act respecting Clothing, Food, Water, Water-closets, the expense of issuing a black waterproof coat to each member of the crew, and the expense of food, water, and clothing to be made by dispensing with the issue of a summer trouper."

Demands for Unemployment.

NATIONAL, D.C., March 26.—The unemployed made a demonstration late last night at a meeting addressed to the members of Congress, who have refused to sign the declaration that they had no money, as imposed by the Senate, to meet the demands of the men, assembled in front of the hall where Premier McBride, of Australia, spoke, and a leader of the Australian Socialist leader. A resolution was passed calling upon the government to make a special appropriation on the ground that it would disenfranchise men returning to England. The demonstrators marched into the hall, but were driven back by the police. Later Premier McBride received the men at his hotel.

MAKED MEN AT WEDDING.

Straw Boy! Terrorized Party in County Limerick.

LONDON, Mar. 24.—A party of masked men, who are locally known as straw boys, terrorized a wedding party at the house of Mr. Guckin at Brinsmead, county Limerick, a few days ago.

The house, too, the leading part in the various dances, was most of the liquor which was drunk.

The bridegroom, generally terrorized the guests and when departing carried away the bride, who was a widow, and the entertainment of the wedding party.

The invaders returned later and indulged in further horseplay. They threatened to burn the house, but did no damage.

SMALL DEBT CASE.

Judgment was given for \$20.00, the amount of the claim in the District Court this morning in the case of the Alberta Telephone Co. vs. G. S. Johnson. The action was over the balance due the plaintiff, in the former and placed in the counter plot owned by the defendant. The defendant claimed that the amount did not set properly in the counter plot and did not stand straight. The plaintiff admitted that the plot was not a regular foundation and was according to contract. Judgment was given to the plaintiff, and G. S. Johnson appeared for the plaintiff and S. L. Bolton for the defense.

THE WIRING COMMENCE.

Last evening the workmen at the telephone building had the stronger plant all in position and this morning the system was put into operation. The most tedious part of the operations was the connection of the various circuits, which is a most complicated one and the entire apparatus works on a single circuit. The ordinary wall telephone instruments, of which there is one now in every room, are of the standard eight inches square and six inches deep and is a much neater looking piece than the old fashioned instruments. On the outside is a disc with three digits upon its face. As soon as the number is dialed a disc is pulled around to catch each figure of the number of the subscriber. The disc is then pushed in and the connection is made. All telephone subscribers will have numbers greater than one thousand.

MORE IMMIGRANTS.

Yesterday about 150 immigrants came from England, mostly from Lancashire, and the majority of them coming from England. FINED FOR ASSAULT.

What threatened to be a very serious case at the Police Court came to a sudden termination yesterday afternoon before Justice G. S. Hoffman, in charge against Joe Hoffman of assault with intent to do great bodily harm to Frank G. Robertson, the police constable. Yesterday afternoon, Robertson, a constable, was attacked by Hoffman, who was charged with an attempt to commit an economic assault. Then H. H. Robertson remanded for the defendant asked for an adjournment, and the court adjourned, stating that he had anticipated a preliminary inquiry only and had not examined the evidence. The defendant was granted and a further hearing came on yesterday afternoon. The defendant's counsel stated that while he did not admit the assault as charged, in order to save his client from a fine he had decided to plead guilty to the charge of common assault.

THEATRE HOTTED.

Yesterday afternoon he then delayed judgment. Addressing the defendant he said: "That man is very seriously hurt. He appears to be in a bad way. You might have gone the other way. You have probably been drinking and the result of that is that you are drunk and perhaps more than you were to blame. I will therefore give you \$20 and costs."

THE OTHER DEFENDANT.

Geo. Becker, a companion of Hoffman at the time of the assault, was remanded. At the request of his lawyer H. H. Robertson, the charge was changed to assault with intent to do great bodily harm, not guilty. This was later changed, after consultation, to a plea of guilty.

Mr. Justice Scott, of Calgary, had admitted the assault but that could be charged against him. He was told to say so at the time. He therefore agreed for a nominal sum.

The magistrate after remitting the prisoner who had been before the court before for that sum said \$20 and costs.

FOFFER MADE TODAY.

He is the second member of Messrs. H. H. Norman and Son to be appointed to present the petition of the Norwood residents to the city council asking that the houses of all firms to be located in the city be required to report every evening regarding the results of their efforts.

The statement that all the members of the movement had already given their names to these undesirable persons was denied by Mr. Norman, who said he had been approached by the large number of Norwood residents who assembled last evening at the annual meeting of the association taken on the 15th January by Mayor McLean.

In order to assist the police in clearing up the details of these ill-founded accusations, a committee of five residents of the outlying sections of the city was appointed.
